

Halloween at Home

A Hair-raising Halloween Event

Halloween at Home is a safe and fun way for families and children to enjoy Halloween!

Candy Partners & Candy Contributors

On Saturday, October 31st, H.O.P.E. for Sunny Skies will be hosting its first Halloween at Home event in the local community. Halloween at Home is a safe and fun way for children to enjoy the Halloween holiday and a great way for businesses and private citizens to become involved in a City-sponsored community event. Families with children will be able to enjoy Halloween from the safety of their home. They will be provided with a Family Halloween package that will include costumes, candy, a family night pack, and their front door decorated in creative and interesting ways by our community volunteers. They will also donate their time to prepare and deliver packages for 20 families in the local community. In addition to families receiving their Halloween at Home family pack, we also have two other great opportunities for businesses or private citizens to get involved with this event by becoming a Candy Partner or a Candy Contributor! See below for more information.
